

FOCAL INFECTIONS AND FUNCTIONAL DETOXIFICATION: MYTH, MYSTERY OR FACT?

A unique opportunity to network with like-minded healthcare professionals, share leading edge information and knowledge to learn how to create a common ground to help patients seeking our individual expertise.

SPECIAL GUEST SPEAKERS

Dr Chris Shade (USA)
Dr Mike Margolis (USA)
Dr Blanche Grube (USA)
Dr Johann Lechner (Germany)
Renzo Celani (Norway)

KEY TOPICS COVERED

- Do we need to look at the whole person and work as a team with other healthcare professionals?
- Are root canals and periodontal pockets infected? Is this important to the well being of the patient?
- The current science on focal infections/cavitations, and how to investigate and treat this.
- Biocompatible treatment options for healthy bone and the use of ceramic implants.
- The current scientific nutrition with our understanding of physiology/biochemistry to eliminate dental and environmental toxins from our body
- Systemic health and dental infections
